## Sierra Club BC - Environmental Education Programs

Welcome to our 14<sup>th</sup> year of education program delivery!!!

We are happy to say that our English elementary and middle school programs will be delivered in classrooms throughout the 2011-2012 school year! We will be offering our Temperate Rainforest Ecosystem Education (TREE, Grades K-7), Climate Change (Grades 4-5), and Going Wild! (Grades 4-7) programs this year. If you would like to register for our elementary and middle school programs, please fill out the current online registration form. For detailed descriptions of programs and prescribed learning outcomes, please click [here](#). (We are unable to offer French programming at this time, however we do have some French resources available).

*If you have registered in the past, we ask that you resubmit an online form so that our information is correct and up to date. To register, please follow the link:*

[http://www.sierraclub.bc.ca/education/ed\\_schools/elementary-middle-1/register-your-class-for-a-school-program/](http://www.sierraclub.bc.ca/education/ed_schools/elementary-middle-1/register-your-class-for-a-school-program/)

We will also be offering our Sustainable High Schools presentations (Water, Economy and Wealth, Energy and Climate Change, all Grades 9-12). Please see the [website](#) for descriptions of secondary programs. To register for a high school program, please contact the Sustainable High Schools Educator at [shs@sierraclub.bc.ca](mailto:shs@sierraclub.bc.ca)

**NOTE:** *We will let you know when we've received your registration information, however, this does not guarantee that we will be able to visit your classroom. Registration is open until all program spaces are filled, but we do not operate on a 'first come, first served' basis. All visits depend on many factors, the largest of which is travel costs and funding. When we have assessed the Education Team's schedule and travel ability, we will send out a **confirmation of delivery email** with your program schedule.*

In addition, while we would love to visit every school that expresses interest, demand is very high for our programs and travel is determined by funding capacity. If your school and/or community is able to make a donation, it may facilitate us coming to your region. For more information about our Adopt-A-School Program, please contact [zuzanna@sierraclub.bc.ca](mailto:zuzanna@sierraclub.bc.ca)

We look forward to visiting you!
