

LEARNING INITIATIVES

Professional Book Club 2011 - 2012

What: Learning Initiatives is pleased to announce our sixth Professional Book Club. This year our inquiry focus will be on how technology can enhance our pedagogy to support high levels of achievement for *all* learners.

Come to our professional book club focusing on Bill Ferriter's book, *Teaching the iGeneration: 5 Easy Ways to Introduce Essential Skills with Web 2.0 Tools*.

Join us for lively discussion!
Brainstorm ideas with colleagues!

“Each chapter identifies an enduring skill that students need to acquire – information fluency, persuasion, communication, collaboration, and problem solving – and offers a digital solution to enhance, rather than replace, familiar practices to teach that skill. With this book, educators can make learning more efficient, empowering, and fun”.

Each participant will be provided with a copy of Bill Ferriter's book.

When & Where: Dates Below 3:30 – 5:00 pm Location TBD

October 24	November 15	December 6	January 24	February 21	April 17
