**April 30, 2004**

**For Immediate Release**

## **JOB ACTION UPDATE**

---

At the present time, we do not have definitive information regarding whether job action will continue on Monday, May 3, 2004. Should the job action continue, all schools in The Greater Victoria School District will continue to be open, however, it is expected that only a principal and a vice-principal will be present and available at each school location.

Students who require learning materials can enter the school and will be assisted by administrators. It is not expected that teachers will be present if job action continues on Monday, May 3, 2004, therefore an educational program cannot be guaranteed.

To get the most up-to-date information, it is requested that parents pay attention to local radio and television stations during the weekend and on Monday morning, May 3, 2004.
