

Aboriginal Learning Plan Executive Summary
April 27, 2016

The following factors can be used to predict graduation:

- Attendance
- Attachment
- Achievement

Data used to track these graduation prediction factors:

- Attendance data
- Satisfaction surveys
- Special Education designations
- Reading at grade level by end of Grade 3
- Grade 4 FSA participation and achievement
- Grade 7 FSA participation and achievement
- 6 Year Completion Rates and Completion Rates by Gender
- English 10 Completion Rates
- English 12 Completion Rates

Next steps:

- Establish systems to track attendance
- School-based systems monitor student reading levels to provide timely intervention supports
- Explore disparity in behavior and gifted designations to determine how to support all learners
- Monitor FSA participation and achievement to provide support
- Monitor 6 Year Completion rates and Completion rates by gender to implement support
- Promote English 12 completion rates
