WEAVING ABORIGINAL WORLDVIEWS & PERSPECTIVES INTO THE CURRICULUM

- A Workshop Series -

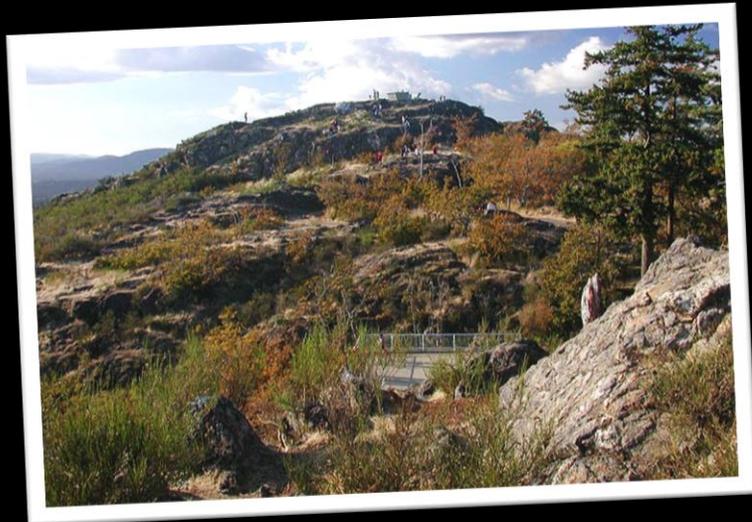

Indicators of Success

- We'll know we're successful when:
 - We see increased numbers of non-Indigenous people taking direct personal responsibility for their own decolonization and reconciliation
 - When any Indigenous person who has an education doesn't feel obligated to fight for the rights of Indigenous people
 - When teachers understand the relevance of Aboriginal knowledge, and when kids believe in themselves and are confident learners
