

We invite your input into the 2018-2019 Budget

Each year, the Greater Victoria School District prepares an operating budget for the upcoming school year. The budget for the 2018-2019 school year is starting to be prepared now. Due to increasing student enrollment and planned use of surplus carry forward funding, the School District was able to balance the 2017-2018 budget without reductions to programs or services. Based on current projections, we expect that the 2018-2019 year will be the same. The Board of Education requests your input by responding to the questions below. The input received will be used to guide decision making for the 2018-2019 budget process.
