→ making non 1st school choice work.

→ current school CU stretched to capacity with resources

→ transportation/space

What is your question/comment/concern/issue?

Many of us are making our available school work (this is not our 1st choice school) an issue

- Campus view has major space issues. We have lost special ed/reading assistance areas as well as library space.

- Transport is also an issue. Cycling from our home is not safe and 39 bus is a catchment for UNIC so we have to get up 11:15 early to hopefully get picked up. Not left on the curb.

Please walk with Be Transit
→ \$\$\$ for an age 6-10 yr old bus pass is costly.

overcrowded often
drives by full does not
stop

~~busing expensive~~ (#39) not viable to get to school as time

to pick up/drop off safely

English language
diving capacity
limited disability
mobility

School targeted — by parents
many eng 3rd language

limited
stresses
resources

absorbed additional French students

caused special issues

school's language distinction and without any other support

(teachers work for the best of all)

and start to contact some people and start to expand
as there are many students without for home
language support

and the more students, more the school is required to
start to distinguish a lot of students who have to be
for individual attention. It is not the same for all
students and the school is not the same for all
students.

and the more students, more the school is required to
start to distinguish a lot of students who have to be
for individual attention. It is not the same for all
students and the school is not the same for all
students.

SD61 Catchment Boundary Review

*Don't forget to leave
your feedback!*

Bring this comment form to the open house and share your thoughts.
Please hand in the form before you leave.

What do you think about the proposed boundaries?

With our current and proposed boundary we have
significant safety concerns and concerns
about the distance to school and the roads we would need to
commute to school on.

What are some other neighbourhood-specific considerations?

We live on the north end of Oakdowne Rd between
Lansdowne and Midowne Rd. Our little corner of the
Lansdowne slope has our Catchment School placed in
Gordon Head - 4 km from our home. It is unsafe
for our children to commute and a very large distance in busy traffic.
We are requesting to have our catchment be in Oak Bay -
in the neighborhood we live and play in.

Please consider amending the boundary to include us
in the Willows Flattery - OB High Catchment stream..

Our location:

Oakdowne Rd.

What do you think about the proposed boundaries?

they are not well thought out.

What are some other neighbourhood-specific considerations?

Any other comments?

It does not appear that any consideration has been given to the 195 students that would be offloaded to their catchment schools if clouerdale tradition were to change to a catchment only school. This also does not account for the social impact of changing the dynamic of

schools of choice. These are highly sought after
programs that the district should be proud of,
not programs that should just be cut out.

they are not well thought out.

account for the social impact of changing the dynamic of
the district. It also does not
were to spend a lot of money on
of people to their children's schools it could be
been given to the 1st students that would be
It does not appear that our curriculum has

Oak Bay Community

February 26, 2019

SD61 Board of Education

The intent of this letter is to express my discontent with the current (and proposed) catchment map in our neighbourhood. Although I use our personal situation to explain my discontent, I speak for a small neighbourhood which has seemed to be an oversight when creating the catchment map.

We are a part of the Oak Bay Community; we reside here, have a network of friends here, our family is here, and we are business owners here. We have established our lives in the Oak Bay community and would like to remain a part of this community.

My children attend Oak Bay Preschool. TEN of my eldest daughter's preschool classmates will be attending Willows Elementary in September 2019. Not ONE will be attending Campus View Elementary. She will be entering kindergarten not knowing anyone at her school, making an already tough transition even tougher. Her "community" will be with children whose homes are not within walking-distance for play dates. Her "community" will be with children and families we will not see at our neighbourhood park play dates. Her "community" will be with families who are a part of a neighbourhood which we are not a part of.

In our Oak Bay neighbourhood community, there are a small number of young families. We gather on warm evenings for pizza parties in the park, and some kids (and parents) walk to Willows Elementary together. Currently, our neighbourhood is divided on the catchment map as well as the proposed new map; we are just outside the Willows/Oak Bay High catchment. Most of the families have successfully transferred into Willows from Campus View in previous years (and therefore the younger children have sibling priority). We are the only family we know of who will be attending Campus View. We will lose that sense of community that we have established in our neighbourhood. We moved to Oak Bay for that community and didn't check the catchment map before purchasing our home because of the proximity to the schools. Our neighbourhood belongs in the Willows/Monterey/Oak Bay catchment.

Please consider revising the catchment map border to Lansdowne Road – a natural divide.

Please allow us to remain in our community.

Thank you,

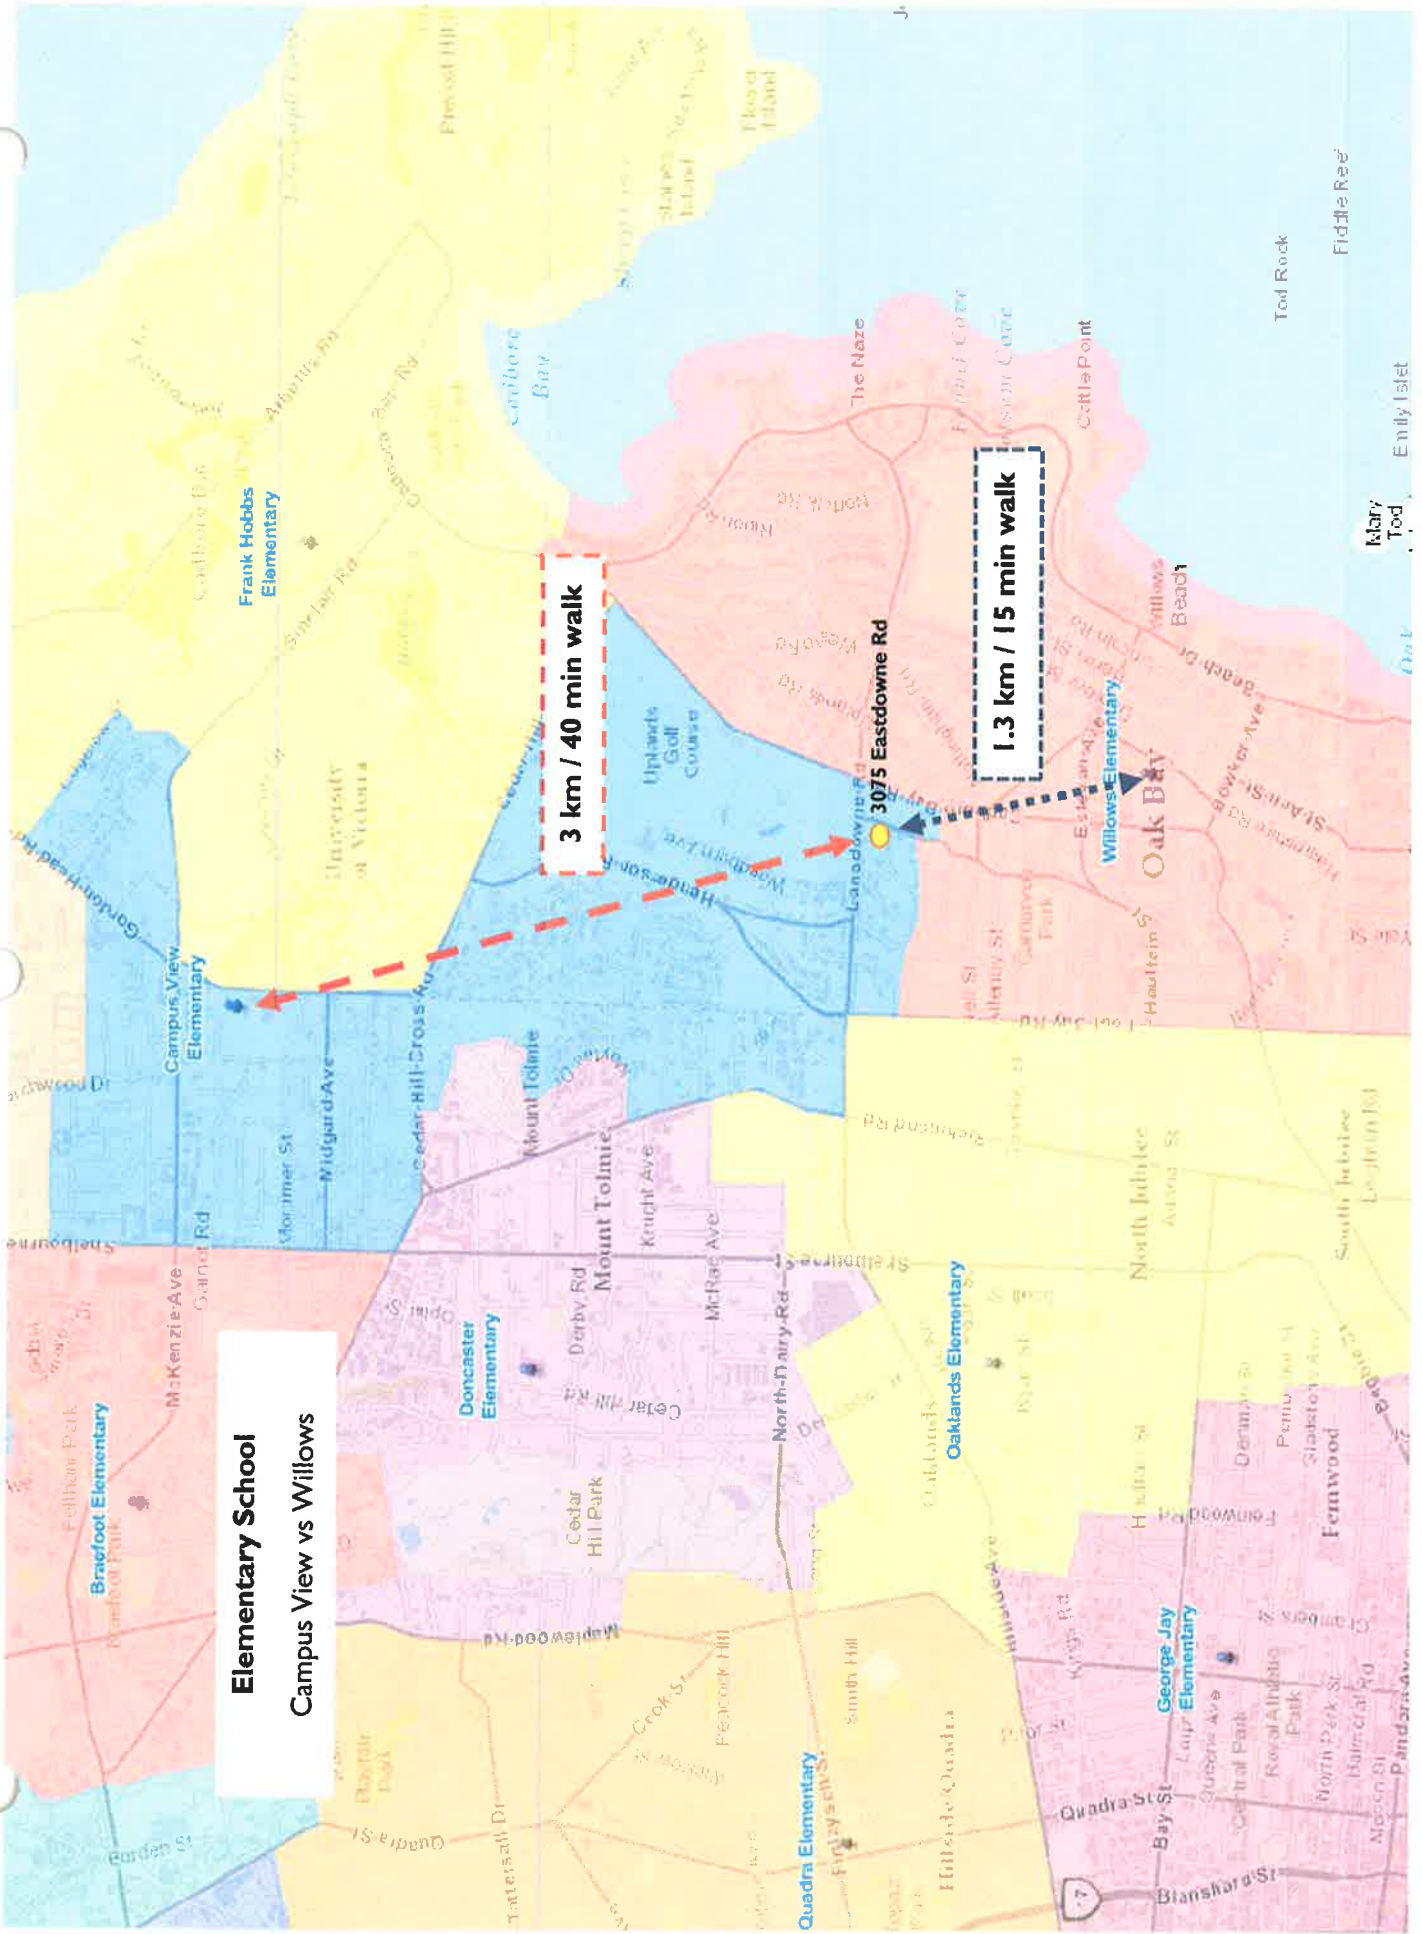

Elementary School

Campus View vs Willows
