

May 9/19.

Rogers / Northridge split
use #17 highway as the boundary

Gorge / Admirals area student @ Eagle V.
currently will have to go to Shoreline
due to address but peers will go to
Colquitz.

How will the 'split' be decided if it
happens?

* Agnes shouldn't feed NIE $\rightarrow$ 400m walk
to McKenzie

Split makes sense to dad () on
Agnes

Could there be a 'grandfather' clause
for siblings where an older sibling
is @ McKenzie to make the younger
sibling a catchment sibling?

Agnes $\rightarrow$ can the whole street go to
one school as opposed to
 $\frac{1}{2}$ going one school + $\frac{1}{2}$ going
to others.

Have we looked @ other districts
to see what has worked?

Consideration to working with Saanich
to make some safer walkability
(ie) crossing tillicum, carey, etc)

Do current students have to move?

Review Safe Routes to School Maps/Routes

When will we know the results of the /our feedback?

Boundary Review Comments - May, 9, 2019.
Phase Three - McKenzie Catchment

~~is any thought~~

- ① Would like the review committee consider including area between #17 + Glanford North of Agnes into either McKenzie or Northridge catchments.
- ② Geographical Splits
- ③ How would you envision who would go to which middle school?
- ④ Letter SENT Re: The Gorge Area and Shoreline Colquitz by a parent Cited Recommendation 29.
- ⑤ How will you select where students go in this proposed split? Address, geographic location?
- ⑥ I would like Agnes St and even a few streets North (ie Broadway, Baxter) to be included still in McKenzie catchment as it is so walkable (400-600m from Agnes/Baker)
I would be happy with a split from McKenzie Kids → those N. of McKenzie go to Glanford, those South to Colquitz.

Phase Three - McKenzie Elementary

PG. 2

- ⑦ Siblings + Transfers dependent on the Split?
- ⑧ Does A grandfather clause make sense if a sibling is already attending?
(I Do NOT want to separate my kids to be in different schools b/c of the Split).
 - possible grandfather clause have a time limit.
- ⑨ Can the Split Consider same Streets attending the same School?
- ⑩ Have we looked at other School Districts and what their experience has been in boundary reviews?
- ⑪ I'm in the South of McKenzie & we chose McKenzie b/c it was a walkable School - worry is the walkability regarding the split - is there any consideration regarding the split for walkability of students.

Baundry Review Comments

May, 9, 2019

Phase Three - McKenzie Elementary (Pg. 3)

(12) My Son is in K right now and daughter coming in 2020 to McKenzie

(13) Does my Child that is currently attending McKenzie will still be able to attend McKenzie or will we be now asked to move based on this proposed split.

(14) McKenzie families have traditionally gone to the middle schools they can walk to.

(15) Trustees Do not be afraid to make — the decision to split a En S. Cohort.

'Smart look at McKenzie Required'
look at McKenzie Differently

- McKenzie needs

Boundary Review Comments

Phase Three - McKenzie Elementary (Pg. 4)

- (16) Can Colquitz accomodate the proposed feeder school populations in the next 5 years if Colquitz Middle is already near or at capacity? What is the expected population ↑ of Colquitz's feeder schools compared to Glandford's feeder schools?
- (17) Would like to see McKenzie continue to be a Dual feeder School.
- (18) With the revised Boundaries I think it's imperative to review the Safe Boundary Walking Maps
- (19) When will we know the outcomes of our feedbacks
- (20) Who makes decisions on student transfers

Mckenzie should feed into both Colquitz and Glanford as official pathways. This seems to be happening anyway and then families wouldn't have to fill out transfer papers. This makes sense.

I currently live on O'Connell Pl & have a child at McKenzie. With the new proposed boundary change my kids would then go to Colquitz instead of Glanford. They would then have a 20 min walk instead of a 5 min walk. ^{on quite residential streets} ~~for busier rd's~~

I would like to express my support to consider moving the boundary for Glanford to go up to McKenzie Ave. Especially if Glanford has the capacity & Colquitz doesn't

I'm also in support of considering moving the McKenzie / Northridge boundary back to what it is now.

I'm also curious as to why Swan Lake was added to the Glanford catchment & kids that are close, like us, are being moved to Colquitz. Kids who are within walkable distance should be kept there.

I think the boundry should move more north for the mckenzie / northridge elementary boundry. I live at [REDACTED] Broadway street & it take [REDACTED] min to walk to Mckenzie school compared to about 30 min + to North Ridge. It makes zero sense.

I also think that families living walking distance to glanford middle school should be able to go there. Kids should be able to walk to their school.

I currently have a son in kindergarten at Mckenzie. If this new ~~rent~~ phase goes thru my youngest son will have to go to North Ridge. Is there a way to grandfather my youngest son into this so that they can go to Mckenzie together? Once again its a 5 min walk to school.

*SAFE WALKING ROUTES.

- OLDER SIBLING @ GRANFORD.

- CLOSER TO GRANFORD.

*SOMETHING A LITTLE SPECIAL/
DIFFERENT FOR MCKENZIE?

↳ WHAT'S DIFFERENT?

FEEDBACK - WHEN WILL WE KNOW.

GRANFORD / CORQUITT

- 
- 7
- I think grandfathering siblings out of catchment should be the same priority as siblings in catchment. Especially since kindergarten kids require a parent to be there after school. If siblings are split, a parent can't be in two places at once.

- J

I live at [REDACTED] Agnes Street. Here is my feedback

- ① I am fine with the proposal of splitting McKenzie into North & South, with North going to Glanford and South going to Colquitz (North = north of McKenzie, South = south of McKenzie)
- ② I think there should be a grandfather clause where if one sibling is at one school (eg McKenzie) but now, with the new proposal, would be in a different catchment area (eg Northridge) that the younger sibling be treated as a catchment area sibling, to ensure that the younger sibling can attend the same school as the older sibling, without having to split up families, or to force a transfer on the older sibling.

For example, my son is in Grade 2 at McKenzie, and my younger son is slated to go to Kindergarten in 2020. This grandfather clause would allow my younger son to be treated as a catchment area student for McKenzie, so that the kids can go to the same school.

I feel this make sense, as it would ~~not~~ be for a limited number of kids, for a limited amount of time,

Thank you

[REDACTED]

* Two families on Mar 9/19
Broadway (between
Carey & Glanford)

who have children attend
McKenzie Elementary.
We live between McKenzie
& Glanford schools.

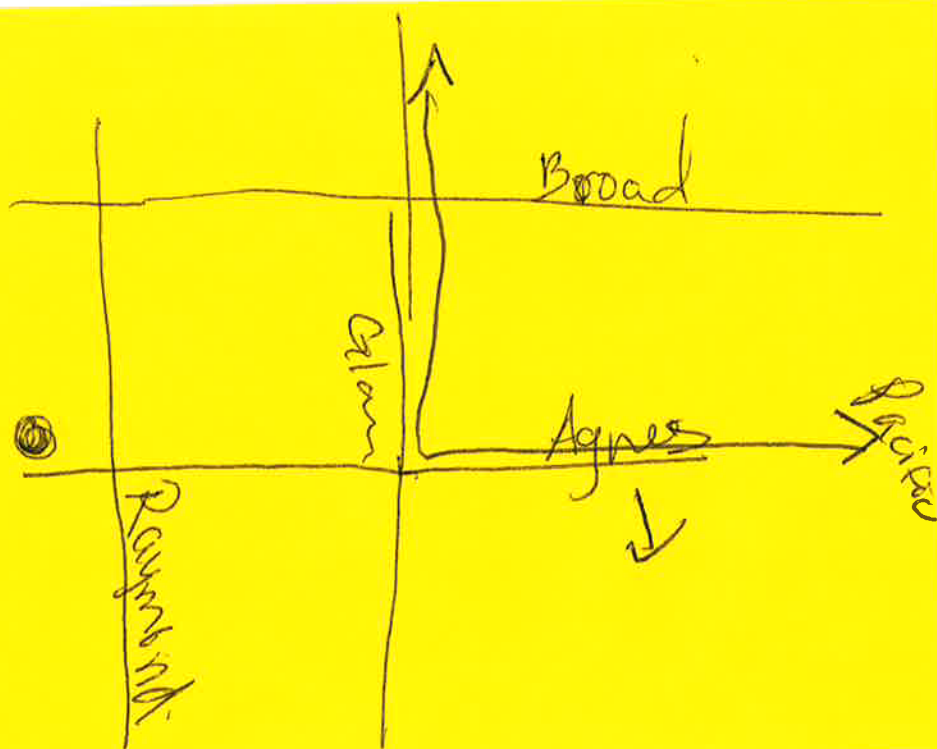

~~For~~ Walking route to
McKenzie is an open visible
path and an easier route
than from our street to
Northridge.

① Dear Sir/Madam,
I am living near
McKenzie Elementary
School. exactly in front
at 4020 Raymond St.
North; My Son presently
is in grade 4th. He
likes to go Glanford
School in grade 6th.
Starting not another
school.

Sincerely,

[Redacted Signature]

May 9, 2019

We live on [redacted] Admirals Rd. We belong to
Block 2900 - Gorge North.
Why we can't go to Colquitz, Spectrum? We closer
then Thetis Vale (They daily drive to Edge new)
In page 27 - Additional suggestion - Note # 2
2900 Block "should continue to feed in
Colquitz, Spectrum (Not Shoreline and Esquimalt!)
→ We have better walking distance
↑
We don't have more schools options.
[redacted]

Let McKenzie be a dual track
school: either Colquitz
or Glanford because it's
always naturally split

When will we know the
Outcomes of our feedbacks

With the revised Bandolites
I think its imperative to
review the Safe Bandolites
walk maps .

Comfortable with Northern Split
