

School Technologist

Position Description | Qualifications

OVERVIEW

Under the direction of the Vice Principal of Information Technology for Learning (ITL), the School Technologist (ST) provides technical support to school district staff, typically within a defined group of schools. The position installs and configures computer software, configures hardware systems, diagnoses and documents software and network related problems on a variety of platforms and operating systems. The ST is responsible for supporting staff in their use of current and new technologies and ensuring that the computers and systems are functional and accessible at all times to the staff and students.

The position works in an environment of varied applications running on a wide range of computers and operating systems and supports both current and legacy technologies.

POSITION DESCRIPTION School Technologist

ST - 1

Investigates, diagnoses and resolves technical problems related to end user devices, user accounts, network connectivity (from both wired and wireless networks), software applications and computer hardware to ensure technology devices are functional and ready to be used by students and staff.

ST - 2

Configures, installs, and administers a variety of software applications and client tools across different platforms and ensures that different computer technologies work in conjunction with each other to create a cohesive system that responds to staff and student demands.

ST - 3

Promotes and maintains district standards of software, hardware and technical procedures for supporting technology in meeting school demands

and reports exceptions outside of the district standard.

ST - 4

Supports staff in improving their technical literacy and classroom management capabilities through the transfer of knowledge and skills in oneon-one and small group settings.

ST - 5

Facilitates the collection and replacement of end user devices.

ST - 6

Re-images computers, sets up (connects) and dismantles collections of devices, and troubleshoots printer problems.

ST - 7

Promotes and supports District policies regarding appropriate use of technology in schools.

ST - 8

Transports equipment and travels between assigned schools and responds to differing priorities of technical issues that may be time sensitive.

ST - 9

Attends District support meetings and remains current with District supported technology trends to be able to effectively support staff with new and existing resources.

ST - 10

Works very closely with other ITL staff in escalating challenging problems and responding to high priority service level requests.

ST – 11

Lifts and moves materials and equipment up to 18kg (40lbs).

ST - 12

Performs other assigned comparable or transient duties which are within the area of knowledge and skills required by this job description.
