Information Technology for Learning

Data Privacy and Security Update

One Path Taken

- Google Apps (2012)** Grassroots adoption of this very successful collaboration software
- District Support** Structures put in place to support widespread adoption including:
- PIA** Privacy impact assessment undertaken
- Consent Model** Parental and student consent model introduced
- Prof Development** Layered resources to support the teaching

Current Due Diligence

Contractual negotiations

Cloud service = PIA

Consent forms

Guidelines

Changing Landscape

- Speed and volume of new online tools
- Heightened awareness
- More consistent messaging
- Data informed organization

The Board Motion – Privacy Audit

Potential scope

1. Policy and program framework including required Privacy Impact Assessments.
2. Consent/use/disclosure of personal information.
3. Retention/correction of personal information.
4. Breach management.
5. Third party privacy management.
6. Training and awareness.

Question regarding prioritization of resources?
