

Information Technology for Learning

Update

Technology is a Partnership

Technology For Learning Operational Plan

2015 - 2019

- **Goal #1** Increase equity of access to technology for all learners.
- **Goal #2** Increase the network of support for adoption and integration of technology for staff.
- **Goal #3** Promote responsible student use of technology for learning.
- **Goal #4** Communicate and collaborate using technology to facilitate One Learning Community.
- **Goal #5** Ensure exemplary technology operations and governance.

CSL Application for Elementary and Middle

ITL Case Study Communicating Student Learning

- 1. Gap identified by teachers and leadership; requirements gathered (needs-based support); project defined.
- 2. Stakeholder engagement and consultation.
- 3. Agile development principles fast feedback, beta testing, small pilot.
- 4. Supported implementation CSL live across the District.
- 5. Governance process developed to review new feature requests.
- 6. Collaboration with Vancouver School Board to share CSL application. Now live in VSB.
