RE:	Workplace Health and Safety Report
DATE:	October 19, 2020
FROM:	Marne Jensen, Associate Director, Human Resource Services
TO:	Board of Education

On February 24, 2020, the Board of Education adopted the following motion:

That the Board of Education of School District No.61 (Greater Victoria) direct the Superintendent to provide the Board of Education annually, a report on the District's compliance with workplace safety legislation and communicate any recommendations for operational and strategic level improvements.

The purpose of this memorandum is to provide a report for the 2019 – 2020 school year.

#### COMPLIANCE WITH WORKPLACE SAFETY LEGISLATION

One indicator of compliance with workplace safety legislation is a review of WorkSafeBC claims. Each claim is investigated and a monthly report including details of the incident that led to the claim is made to the DOHS committee for review and recommendations for improvements to safety procedures. In the 19 – 20 school year, the District Occupational Health and Safety (DOHS) committee made note of the number of slip and falls associated with snow at its February meeting and that WorkSafeBC had found the District reporting process adequate at its March meeting.

Summary of the WorkSafeBC claims from September 1, 2019 to August 31, 2020:

	947	GVTA	P/VP	382	ASA	Other	TOTAL
	WSBC Claim	WSBC Claim	WSBC Claim				
TOTAL:	63	58	0	46	0	1	168

For comparison, summary of WorkSafeBC claims from September 1, 2018 to August 31, 2019:

	947	GVTA	P/VP	382	ASA	Other	TOTAL
	WSBC Claim	WSBC Claim	WSBC Claim				
TOTAL:	94	85	3	33	0	0	215

The DOHS committee also receives a monthly tally of Form 1's submitted under the Violence Prevention Protocol. The committee noted that as not all employees fill out a form and it is difficult to identify trends without qualitative analysis.

	947		GVTA		P/VP		382		ASA		OTHER	
	Form 1	WSBC Claim										
TOTAL:	376	23	95	13	17	0	0	0	0	0	3	1

Summary of the VPP Form 1's for September 1, 2019 to August 31, 2020:

For comparison, summary of the VPP Form 1's for September 1, 2018 to August 31, 2019:

	947		GVTA		P/VP		382		ASA		OTHER	
	Form 1	WSBC Claim										
TOTAL:	416	27	183	14	21	2	0	0	0	0	0	0

Another indicator of compliance is the outcome of WorksSafeBC Inspection Reports:

- IR 201916704172 (issued on December 19, 2019) Worker injured following inadvertent contact with material being loaded onto flat-deck truck. No Orders resulted.
- (2) IR 202018827021 (Issued January 23, 2020)
   Worker received electrical shock while moving a stacked washer/dryer unit and transported to hospital
   No Orders resulted.
- (3) IR 202015527103 (Issued June 2, 2020)
   Specific investigation findings of bully & harassment and corrective actions No Orders resulted.
- (4) IR 202015527104 (Issued June 2, 2020)
   Bullying & Harassment Policies, Procedures and Training at SD#61 No Orders resulted.
- (5) IR 202018130076 (Issued July 7, 2020) School JOHS Committee requested senior management have a medical profession review the individual COVID Plans for each student to provide support to the staff.

One order resulted (not in compliance): The request was not responded to in writing within the required 21-days set in the WCA 39(2). Corrective measures taken to address the situation from re-occurring:

- Provide procedures for submission of request/recommendation from JOHS to senior management in the Terms of Reference;
- Implement improved tracking system that will be managed by the management co-chair of the DOHS Committee.

Complied September 1, 2020 with additional submission of JOHS minutes in September.

#### STRATEGIC LEVEL IMPROVEMENTS

Improvements to the Violence Prevention Protocol have been a major project over the last two years stemming from two WorkSafeBC orders in the fall of 2018:

#### Inspection Report 201812480159

Date of Inspection: October 23, 2018 School EA – Unsafe Work

One Order Issued Workers' Compensation Act 115 (2) (e)

Employer has not provided adequate information, instruction, training & supervision to the workers tasked with complex needs students including violence minimization. <u>Complied on April 15, 2020</u> with completion of Crisis Prevention Institute training at the School.

#### Inspection Report 201812480158

Date of Inspection: October 15, 2018School EA –Unsafe WorkFour Orders Issued-Complied #4: on April 15, 2020

- 1. OHS 4.30 (2) Employer has not ensured that accurate information regarding the potential of a student with a violence/aggression history is communicated to all staff, and staff have adequate time to read the necessary files.
- 2. OHS 4.30 (3) (b) Employer has not ensured workers have adequate instruction in minimizing incidents of violence/aggression.
- 3. OHS 4.3 (3) (a) Employer has failed to instruct workers on the potential risk of violence from students in the workplace.
- 4. OHS 4.28 (2) Risk assessment so far has focused on student and not consideration of the impact on workers in the workplace. The risk analysis must include previous experience in the workplace, occupational experience in similar workplaces and location-circumstances in which the risk of violence may occur.

<u>Complied September 5, 2020</u>, with delivery of the pilot program Violence Risk Assessment Final Reports.

2019 – 2020 actions taken to resolve the two orders:

#### Violence Prevention Plan Manual

- The District has undertaken a significant rewrite of the Violence Prevention Plan (VPP) in the Fall 2019/2020.
- The rewrite has included in depth consultation with representatives of teachers, educational assistants and inclusive education specialists. The main purpose of the rewrite was to provide a

clear, readable document that makes sense in the education environment and supports inclusive education.

- The DOHS committee has reviewed and provided advice and recommendations for improvements in the manual.
- The manual will be finalized based on the information gained through the Violence Risk Assessment Pilot conducted during this school year. It will be ready to be placed on the District's Staff Portal for in the fall of 2020.

#### Training

- The District made a significant investment in increasing the level of non-violent crisis intervention training (CPI) of educational assistants.
- The District has certified CPI trainers on staff and held seven sessions through the 2018 19 school year. 171 employees (including 120 educational assistants) were provided the training.
- The District held additional CPI training for 78 employees (including 54 educational assistants) in the 2019 20 school year.
- The District is undertaking a review of the EA position qualifications and staffing assignment processes to ensure EAs are adequately trained to work with the students in their care.
- The District has provided training logs for the EA's at the School who are or may be working with children with a risk of violent or aggressive behavior.

#### Violence Risk Assessment-.

Seven schools were part of the Pilot Violence Risk Assessment Program (VRA). The schools' JOHS Committees conducted the Environmental VRA and 495 Worker VRAs were sent out with 59% return rate.

The data from the Violence Risk Assessments produced a master list of Violent Hazard Control Table that was used to create Violence Control Tables with District Policies and Regulations.

A gap analysis was performed to address areas that will need improvement.

- The training on the VPP process and documentation is the central deliverable for the District. The training platform is uncertain due to COVID-19 restriction of larger groups.
- Policies and Regulations on-line need to indicate that they have been reviewed by the District's Educational Policy Committee within the past year and reflect current practices.

#### **OPERATIONAL LEVEL IMPROVEMENTS**

#### COVID-19

Since March 2020, the corona virus pandemic has presented operational health and safety challenges. The District published its first exposure control plans on March 30, 2020 for staff in district office, facilities and schools. The plans have been updated based on the BC Centre for Disease Control COVID-19 Public Health Guidance for K-12 School Settings); Ministry of Education Provincial COVID-19 Health & Safety Guidelines for K-12 Settings and WorkSafeBC BC Education (K-12): Protocols for returning to operation; as well as with advice and recommendations from the DOHS Committee. The Exposure Control Plan for School Sites taken together with the BC Centre for Disease Control COVID-19 Public Health Guidance for K-12 School Settings represent the administrative measures in place to keep staff and students safe in schools and are attached to this memorandum. At the school level, administrators have worked with staff and joint occupational health and safety committees to implement the administrative measures and the Facilities Department has deployed custodial staff to meet the required cleaning levels required. Engineering measures such as droplet barriers in school offices have been installed.

The DOHS committee met more regularly during May and June to provide advice and recommendations to the District on worker health and safety in the COVID-19 environment.

#### Joint Occupational Health and Safety Communication and Training

District staff and worker representatives have identified the need for improved training for committee members to fulfill their responsibilities under the *Workers' Compensation Act* and communication systems between school level committees and the district level committee. District staff undertook planning over the summer months and an initial plan was presented to the District Occupational Health and Safety Committee at its September 21, 2020 meeting.

#### PRIORITIES FOR THE 2020-21 YEAR

- COVID-19
- Updated Violence Prevention Protocol implementation and training
- Joint Occupational Health and Safety Committees training and communication

## **POLICY 5141.3**

## **USE OF PROVINCIAL AMBULANCE SERVICES BY SCHOOLS**

The Board of School Trustees recognizes that a student and/or staff member may require the services of a provincial ambulance due to illness or an accident. The Board of School Trustees, therefore, authorizes the use of the provincial ambulance in cases of emergency only. Authorization must be by the principal or his delegate.

Greater Victoria School District Adopted: March 17, 1975

Modification to this document is not permitted without prior written consent from the Greater Victoria School District.

## **POLICY 5143**

## STUDENT ACCIDENT INSURANCE

The Board of School Trustees recognizes that there may be need for student accident insurance coverage and that a large number of parents are interested in obtaining such coverage. The Board takes no objection to the establishment of such a scheme provided that the administrative and clerical work entailed therein be the responsibility of the designated insurance company and not school staffs.

Modification to this document is not permitted without prior written consent from the Greater Victoria School District.

## **POLICY 6112.1**

## SCHOOL HOURS

Schools may, in consultation with those who would be affected by the change, make changes in their existing school hours. Such changes must be in accord with the School Act Regulations.

These proposed changes when approved by the administration will be brought to the Board for information.

Principals of elementary schools may, after consultation with parents, reduce the hours of attendance of grade one pupils by one-half hour per day for the months of September and October.

## **POLICY 6130.1**

## **PRIMARY PROGRAM**

## GENERAL

A revised program for students enrolled in the first four years of school was mandated by the Ministry of Education in September 1991. The new program calls for changes in curriculum, instruction, assessment and reporting and organization for learning. It is expected that changes will be fully implemented in all schools in the province by the Year 2000.

## PHILOSOPHY AND GOALS

The Primary Program in our district is based on the mission, goals and beliefs of the District. Thus, programs are focused on the needs of the individual learner. The Provincial Primary Program document supports district direction and is the foundation for the development of learning experiences in our classroom.

All young children in our district will participate in a personalized learning program that develops their knowledge, skills and attitudes in all five major goal areas: intellectual development, emotional development, social development, physical development and aesthetic and artistic development.

## INTENT

It is the intent of the Board that all learning experiences for primary students be developed in accordance with the new provincial program philosophy, goals and directions.

*Greater Victoria School District* Adopted: June 22, 1992

Modification to this document is not permitted without prior written consent from the Greater Victoria School District.

## **POLICY 6135.1**

## **CAREER DEVELOPMENT:**

## **CAREER PREPARATION PROGRAMS**

The intent of the Board of School Trustees of Greater Victoria is to enable students to develop knowledge, skills and attitudes around life and career planning through a variety of means, including Career Preparation Programs.

The Greater Victoria School District believes that the purpose of Career Preparation Programs is to provide an opportunity for Graduation Program students to develop knowledge, skills and attitudes directly related to concentrated study in a particular career field. This will involve long-term partnerships with the community in order to enhance student learning.

## **REGULATION 6141.4**

## TEACHING WRITING SKILLS ACROSS THE CURRICULUM

## Preamble

In applying these regulations to the assignment and evaluation of written work, teachers and principals shall recognize that the ability to write is related to one's degree of mastery of other skills, such as speaking and reading. Fundamental to these regulations is the conviction that PROCESS (learning the special skills necessary to write in a subject area) is as important as PRODUCT (the content of what is written) and that both should be taught and considered in the evaluation of student work.

## Teachers' Role in the Instruction of Writing Skills

- 1. Teachers in every school or department shall establish specific language learning outcomes that relate to assigned writing activities.
- 2. Schools shall develop, by grade level or by department, effective procedures to evaluate student writing. Both the learning outcomes and accompanying evaluation procedures shall be communicated clearly to students.
- 3. Teachers shall provide instruction in a variety of writing forms appropriate to their subject area e.g., notes, reports, labs, letters, stories, articles, poems, essays, and so on.
- 4. In order to improve students' written assignments in every subject at every grade level, teachers shall teach all of the stages of skill development which lead to the more complex kinds of writing appropriate to each age group e.g., research skills -- outlining -- paragraph structure -- multi-paragraph compositions.

## **POLICY 6142.01**

## **ELEMENTARY PHYSICAL EDUCATION**

It is the desire of the Board of School Trustees to stress good health and full development through the maintenance or improvement of the quality of physical education programs in the District. To this end, the Board encourages each elementary school to develop a balanced physical education program that may include instruction received in regularly assigned physical education classes, intramural, and extramural experiences. All physical education programs should encourage participation of all students, good sportsmanship, student leadership, co-operative effort, and quality of performance.

- 8. The agenda shall All agendas will be prepared and circulated by the Chair of the Board, with input from the Vice-Chair, the Superintendent, the Secretary-Treasurer and the Deputy Superintendent (the Agenda Setting Committee), and circulated by the Chair or designate. Proposed agenda items will be provided to the Secretary-Treasurer no later than the Monday before the meeting.

In consultation with the Superintendent, Vice-Chair, Secretary-Treasurer and the Deputy Superintendent, and when applicable, relevant Committee Chair, items detailing a recommendation for the Board's consideration, submitted by Trustees, will be considered for inclusion on the Agenda provided initial communication with Superintendent or Designate has occurred, and is accompanied by submission of a backgrounder in standard Board format. Backgrounders will be subject to copy edit for clarity and accuracy of information, when necessary, and with consultation of submitter.

If it is determined that the item has not been properly prepared for inclusion on the Agenda (e.g. information is not correct, not accurate, not provided in backgrounder format), the Chair will communicate decision and rationale to the Trustee who submitted the item by Tuesday of the week prior to the meeting. If the Trustee does not agree with the decision, they may request it to be included on the agenda by resolution at the call of the meeting.

Agenda items, including individual trustee submissions, are not to be shared with the public prior to the agenda being finalized and items have been determined to be "in-camera" or "regular open".

Modification to this document is not permitted without prior written consent from the Greater Victoria School District.

- 9. There-shall will be an agenda circulated to all trustees not less than three days prior to each regularly scheduled meeting of the Board in general session, and not less than forty-eight hours prior to a special meeting of the Board, in general session. Unless otherwise called under Item 3.
- 10. The agenda shall will be approved by ordinary motion as the first item of business at each meeting.
- 11. The General Agenda-shall will contain the following:

Guidelines for the meeting format including outlining opportunities for public and stakeholder comments

A. Acknowledgement of Traditional Territories; Approval of the Agenda; Approval of Previous Minutes and Business Arising from the Minutes, and Presentations, of which first priority will be given to schools, and then to the public and community.

### Greater Victoria School District No. 61 Public Engagement Ad Hoc Committee Terms of Reference

### Purpose:

The Public Engagement Committee is an ad hoc committee established by the Board of Education (Bylaw 9140 Ad Hoc Committee of the Board) to develop recommendations for increasing engagement with the community.

#### Background:

In the spring of 2016, the Greater Victoria School District No. 61 introduced a new strategic plan outlining five areas of focus over the next three years. The strategic plan was developed by the Board and senior leadership team and was informed with input from parents, students, stakeholder groups and staff.

One of the five areas for focus is community engagement.

Strategic Goal: Actively Engage with our Communities

Strategic Objectives

4.1 Develop a District Communications and Engagement Plan

4.2 Create more effective ways to bring student voices and parent perspectives to our schools and to the Board

4.3 Create more effective ways to bring staff voices and perspectives to the Board

#### **Deliverables:**

The Public Engagement Ad Hoc Committee has the following deliverables:

- 1. To develop a vision and principles, based on input of stakeholders and the public, to improve the School District's communications and public engagement.
- 2. To oversee development of a draft public engagement and communications plan for the Board's consideration.
- 3. To include recommendations within the public engagement and communication plan for public and stakeholder input during Board of Education meetings.

#### Membership:

The committee will be comprised of the following voting members:

- Two trustees appointed by the Board Chair
- The Superintendent
- The Manager, Communications and Community Engagement

The Committee will seek input during the process from various perspectives, including, but not limited to:

- One representative of the Greater Victoria Teacher's Association Executive
- One representative from the Canadian Union of Public Employees (Local 382) Executive
- One representative from the Canadian Union of Public Employees (Local 947) Executive
- One representative of the Victoria-Principals and Vice-Principals Association Executive
- One representative of the Allied Specialists Association Executive
- One representative of the Victoria Confederation of Parent Advisory Councils
- Current and previous student representatives
- Songhees and Esquimalt First Nations representatives
- Administrative and support staff (IT, Human Resources, Financial Services staff, etc.) within the District Offices
- Staff in program areas with greater diversity of parents and students (new immigrants, international students, etc.)
- School secretaries
- Senior leadership
- Local media

### Timeline:

The Committee will provide an update monthly to the Operations Policy and Planning (OPPS) Committee.

## Voting:

Decisions will be made by consensus, if possible. If no consensus is reached, a majority vote will take place.

### **Procedural Notes:**

Date Adopted: XXXXXX 2016

## Purpose:

The Student Registration and Transfer Committee is an ad hoc committee established by the Board of Education for the purpose of establishing student registration and transfer priorities for students attending school in SD 61.

## **Deliverables:**

The Student Registration and Transfer Committee has 2 deliverables:

- 1. To recommend to the Board priorities for student registration and transfer requests, including district programs such as French Immersion and International Student Programs.
- 2. To recommend appropriate changes to policy and regulations.

### Membership:

- Two Trustees appointed by the Board Chair
- The Superintendent or delegate
- District Principal of Modern Languages and Multiculturalism
- Director of International Student Program or designate
- One VCPAC representative
- Three PAC representatives (preference given to one from each schooling level- elementary, middle, and secondary) to be selected by lottery from a list of those schools interested in participating. The lottery will take place prior to the first meeting of the Committee.
- Three Principals (preference given to one from each schooling level elementary, middle, and secondary with at least one from a dual track school)
- Two student representatives

### Timeline:

 The Committee will prepare a project charter outlining deliverables and timelines to be submitted to the Operations, Policy and Planning Committee (OPPS). The report will be completed for the May Operations, Policy and Planning Committee and regular updates will be provided.

### Voting:

• It is expected that the committee will use a consensus model for decision making. When this is not possible, decisions will be made by majority vote.

### **Procedural Notes:**

• Interim reports will be provided until the final report in May.

Shelley Green, Superintendent Greater Victoria, SD 61 Email: sgreen@sd61.bc.ca

Dear Shelley Green

We are pleased to inform you that *Greater Victoria*, *SD 61* has been awarded a grant in the amount of *\$48,000* to support mental health and well-being promotion activities in your school community. An Electronic Funds Transfer will follow on September 30, 2020.

The 2020/2021 grant funding represents year 2 of the 3-year \$8.87-million investment that was <u>announced</u> by the Province on September 4, 2019, as well as the additional \$2-million boost <u>announced</u> on September 2, 2020.

The intention of this funding is to:

- Use existing student data (as chosen by *Greater Victoria*, *SD* 61 from any relevant and appropriate data source) to fund the development of new/enhanced evidence-based, inclusive mental health and well-being activities;
  - Mental Health activities may be universal or targeted in support of students, families, and/or educators;
- Build upon 2018/19 and 2019/20 funding for continued and sustainable mental health resources in the district. This year, we are promoting a focus on compassionate systems leadership and adult well-being, while still considering the approaches of social and emotional learning, trauma informed practice, and mental health literacy; and
- Support districts to engage with Indigenous Rightsholders and Partners within the District/School community to ensure planned activities are culturally safe and meet the needs of Indigenous children and youth;

Please see the attached <u>Overview for Mental Health in Schools Grant Funding Document</u> for more information.

Mailing address: PO Box 9877 Stn Prov Govt Victoria BC V8W 9T6 Telephone: (250) 356-2685 Facsimile: (250) 356-1742 A grant of this nature requires that the Ministry outline its standard expectations in terms of accountability and acknowledgement.

In accordance with conditions placed on all government grants, Greater Victoria, SD 61 must:

- Use all grant funds only for the purpose outlined above.
- By **December 1, 2020,** provide the Ministry a report through the Action Plan Questionnaire outlining how the funding has been or will be spent. Funding must be spent before the end of the fiscal.
- Completion of the 2020/2021 Action Plan Questionnaire is **required** and may impact future grant funding if not completed.
- The Ministry may reclaim any portion of the grant should *Greater Victoria*, *SD 61* not use the funds received for the purposes outlined in this letter.

Further, we ask that you acknowledge the Province of British Columbia's assistance on written materials related to this grant. The following acknowledgement may be used:

"We acknowledge the financial support of the Province of British Columbia through the Ministry of Education."

September 25, 2020

To: Superintendents of British Columbia School Districts and the Federation of Independent School Associations in BC

### Overview for Mental Health in Schools Grant Funding

The Ministry of Education is once again pleased to provide grant funding to each school district, as well as to the Federation of Independent School Associations in BC (FISA BC) on behalf of independent schools, to better support mental health for children.

The Province recently announced a boost to funds for school-based wellness programs and supports by \$2 million, topping up the \$8.8-million investment over three years that was announced last September. This means that for the 2020-21 school year, school districts and independent school authorities will receive a collective total of \$3.75 million in grants to promote mental wellness and provide additional supports for students, families and educators.

These grants provide school districts and FISA BC with an opportunity to build capacity in mental health and well-being related knowledge, skills, and resources in school communities. Grants may be used for a range of different activities, such as student workshops and staff training. Sustainable capacity building initiatives are encouraged - such as train-the-trainer programs and the development of video or web-based resource materials for educators, students, and/or families. In response to the COVID-19 pandemic, school districts and FISA BC should ensure that grant-funded initiatives adhere to the BC Centre for Disease Control's <u>comprehensive health and safety guidelines</u>, advice on <u>B.C.'s Back to School Plan website</u>, and should consider the importance of providing access to digital and online resources for blended learning opportunities.

### Supporting Information

The Ministry of Education has recently announced the <u>Mental Health in Schools (MHiS) Strategy</u> which embeds positive mental health and wellness programs and services in all aspects of the education system. Strategic direction for MHiS comes from <u>A Pathway to Hope</u> which highlights the importance of promoting early childhood social and emotional development and mental health in schools.

**Mental health promotion** is about fostering learning environments in which all members of the school community are supporting individual resilience, creating supportive settings and addressing the influence of the broader determinants of mental health. Research shows that schools have been identified as the most appropriate environment for universal mental health promotion, as well as for early recognition of mental health challenges.

In 2018/19 and 2019/20, school districts and FISA BC were asked to consider the approaches of social and emotional learning, trauma-informed practice, and mental health literacy, which are foundational elements of

mental health promotion. This year, the Ministry also encourages a focus on **compassionate systems leadership** and **supporting adult well-being** when planning activities. Research confirms many school staff are experiencing high levels of stress, which is directly linked to students' stress. Taking a compassionate lens acknowledges that adult well-being is a critical element in supporting children in the classroom and allows for a systems-wide approach to mental health promotion and improved mental health outcomes for students and the school community.

This year, as in years past, the Ministry is asking that the following key elements are considered for planning mental health activities – these elements will be reflected in the action plan questions and are described in detail below:

- Indigenous perspectives and culturally safe and inclusive environments
- Compassionate Systems Leadership
- Inquiry-based conversations around data
- Social and emotional learning, trauma-informed practice and mental health literacy

## Indigenous Perspectives and Culturally Safe and Inclusive Environments

Significant engagement and collaboration with Rightsholders is necessary to facilitate the inclusion of Indigenous perspectives on positive mental health in meaningful ways. School districts and FISA BC should work closely with Indigenous partners when planning grant-funded initiatives to ensure they are culturally safe and meet the needs of Indigenous youth.

#### **Compassionate Systems Leadership**

Leadership that is compassionate, collective, and able to think and act across organizations and systems is an important component in a more systemic approach to mental health in schools. Systems Leadership is anchored in self-awareness, social awareness, responsible decision-making, self management and relationship skills.

### Inquiry-based Conversations around Data

Developing a comprehensive plan is essential for an effective and sustainable mental health strategy. The Ministry encourages the use of a variety of data sources to ensure decisions regarding mental health initiatives are evidence-based, including the **Mental Health Dashboard** which was recently updated to include 2019/20 data.

Social and emotional learning (SEL), trauma informed practice (TIP), mental health literacy (MHL) are key components of mental health promotion. School districts and schools have varying needs, priorities and approaches that inform how they will weave together SEL, TIP, and MHL. When combined, these approaches create strong foundations for positive mental health.

Grant funding must be spent by the end of the fiscal. Any questions can be directed to Danielle Carter-Sullivan, Director, Mental Health, at EDUC.StrategicPriorities@gov.bc.ca.

- The online submission portal will be available October 1 December 1, 2020 (the above link will not be active prior to October 1<sup>st</sup>).
- Each school district and FISA BC has been provided a confidential password, found in their grant letter.
- If you are having trouble accessing the Action Plan Questionnaire (e.g. password issues, website not loading), please contact AWIS at <a href="mailto:support@awinfosys.com">support@awinfosys.com</a> or 1-866-558-5339.
- The Ministry may contact school districts and FISA BC for additional information regarding action plan items to share learnings, opportunities and to promote provincial alignment of mental health and wellbeing strategies.

Grants are being provided with a **requirement to complete the Action Plan Questionnaire – failure to submit a completed questionnaire may impact future grant funding.** Information provided in the questionnaire is collected to fulfil reporting requirements on funding investments and results. It also provides insights on mental health promotion initiatives in school communities, which informs Ministry priorities moving forward.

To gain a greater understanding of the mental health promotion initiatives being implemented in B.C. schools, the Action Plan Questionnaire has been expanded for 2020/2021. In addition, this year, we have provided access to the 2019/20 *Directions Report* for your review, this Report provides analysis and a summary of last year's Action Plans and outcomes from 2018/19 and can be accessed from the secure District SharePoint site, in the folder "Provincial Reports/Documents for all School Districts".

We wish you continued success with your mental health activities for 2020/21. If you have questions, please contact Danielle Carter-Sullivan, Director, Mental Health, at <u>EDUC.StrategicPriorities@gov.bc.ca.</u>

Stay well!

The Ministry of Education, Mental Health Team

For more information on mental health and well-being, including definitions, supports and resources, please visit the *erase*: Mental Health & Well-being website at <u>erase.gov.bc.ca</u>.

The Ministry looks forward to receiving completed Action Plan Questionnaires by December 1, 2020.

# September Update

Building Maintenance Services | Minor Capital | Major Capital Operations | Transportation | Health & Safety

## **BUILDING MAINTENANCE SERVICES**

In the last 30 days our maintenance staff completed 1541 of the 1920 new service requests that were created.

Starting in July 2020, all labor hours were made mandatory to record on service requests. As of last week we have a high rate of buy-in from our maintenance staff with approximately 90% of all hours accounted for by all employees on service requests. We will continue to work with our staff to increase the accuracy of reporting.

Precise Services (Insurance Contractor for Risk Management) on behalf to the Ministry of Finance has been working to complete liability audits on elementary and middle schools in the district. Up to 2008 Risk Management carried out inspections of all schools in the province. This was a fairly extensive inspection looking to identify any risk in the buildings as well as playgrounds, etc. Because of budget issues this service was stopped in 2008.

In 2020 Schools Protection and Risk Management started the program back up. This is happening province wide. We were notified and our inspections began approximately one month ago. Our Assistant Manager of Building Maintenance is working with the Inspector as they make their way through the list of schools in SD 61. Thirty percent of inspections are complete. Principals also receive a form they are asked to fill out for Risk Management that goes along with the completed assessments from the actual inspections.

After everything is done there will be copies of the reports made available to the Board as well as Facilities operations. As in the past, the reports will identify short comings that need attention. Usually this is accomplished using work orders and Maintenance staff or, for larger remedies the work is identified both by scope and costing and them put into a list for Minor capital as funding becomes available. The reports are (at least in the past) fairly extensive and contain a lot of information.

Facilities Services Report for October 19th Operations Committee | October 19

1

We have started preparing for the winter. Ice melt and salt is being ordered for the season and were are prepping for the icy weather should it arrive this year.

We have ramped up the Playground inspection system to be more easily tracked and plan to integrate it to Asset Planner which is our computerized maintenance management system (CMMS-work order system) for seamless creation of service requests (SR)at the time of inspection.

Our Grounds Department has been raising the canopies on trees all over the district including the Tolmie building in an effort to work with the police to curb camping on school properties.

We had a conversation with the Sargent of the K9 unit in Victoria. We welcomed the K9 unit to use some of our school properties for late night practice and rest area for their dogs. Their presence on our property at night should aid in making the grounds safer and more secure at night, and cleaner in the day for our students.

We have two Grounds staff dedicated 8 hours a day 5 days a week to searching around high activity schools for needles and drug materials, as well as picking up garbage that has been dumped on school sites. Historically this task took two staff less than a day up until this fall when the camping bylaws changed.

Over 300 covid related screens have been distributed since the school year began. There are more and more orders coming in daily. The cost of pre-manufactured screens is about \$130 each and custom screens have been upward of \$700.

Two Examples of Custom Plexi Barriers Staff Have Built For Schools

## MINOR CAPITAL

The Capital Facilities Employees have been extremely busy over the last few months. Below is a brief summary of some of the major projects completed or underway.

## **Tolmie Trades Training Building and Parking Lot Expansion**

- Trades Building complete and welding/painting and carpentry crews are working in the building on child care studio projects.
- Parking lot expansion complete.

New Tolmie Trades Building

Overhead Crane

Part of the New Parking Lot

## **Campus View POD Construction**

(Pod is the term used when portable classrooms are placed together for easier access)

- Six portables moved
- All portables have new Heat Recovery Ventilation (HRV), furnaces, interior and exterior paint, and all portable classrooms have sinks
- New space created with 6 student washrooms, Staff washroom, teacher space, counselling space and small conference area.

Campus View- - View of the relocated and completely re-furbished portable classrooms

## **Doncaster Inclusive Playground**

Complete with added stairs an accessible entryway and accessible rubber surface.

### **MAJOR CAPITAL**

### Victoria High School Seismic

Hazardous Material Abatement began in late September. The photo below shows access to the basement was made from the South side of the school to allow removal of hazardous materials.

While this is taking place other work is being done inside, including opening a gym floor to remove fill material in preparation to pour new concrete footings and other structural components.

Progress is good at this point. We now have a new Project Manager named Judith Strega who is dedicated to the construction project and is on site each day and inter-acting with the Construction Manager firm (Durwest). This site presence will make information flow and answers to questions from either side, much quicker.

Photo of the salvaged heritage components stored in the Roper gym

# Cedar Hill Middle School

This project is in its final throes as Jim Soles responds to the Ministry with minor changes based upon recommendations from the Capital Advisor. An example is an updated 'Cost predictability Letter' requested by the Ministry as it completes its submission checklist.

## Shoreline School

Shoreline is moving closer, however much work needs to be completed and likely updated. The bulk of time this past month has been spent on Vic High and Cedar Hill because of the work now underway at the Vic High site and how close Cedar Hill is to being completed.

## Braefoot Elementary

Braefoot is completed and the project came in under budget. A few things are being tidied up by our own forces but the seismic upgrade is completed successfully!

### **OPERATIONS**

Greater Victoria School District Custodians worked hard through the summer to prepare all schools for full student returns. The Cartage department ensured that all school moves were completed, including the first ever seismic move for a secondary school. It was an involved task and all trades groups stepped up to complete it on time.

Our Day Custodians really stepped up through September, helping re-organize classrooms to accommodate a full complement of students while maintaining the standard of daily disinfection. In the evening, our workforce increased by 15 staff. Our regular staff were fantastic in welcoming these new members to the team. They were trained quickly and have helped ensure the building is fully sanitized for every morning. We also introduced a new product, Vital Oxide, to our routine. This product is dispersed using handheld and backpack electrostatic sprayers. By the end of September, every school had this product and equipment in use.

Looking forward to October/November, we are looking to further increase our staff in the day and evening to increase our daily sanitization routines. We will also ensure that our day custodians have extra resources for the replenishment of hand sanitizer and spray disinfectant in all spaces.

We are extremely proud of the entire workforce at SD61 Facilities. They are a pleasure to work with, especially through these unprecedented times.

### TRANSPORTATION

Transportation has been extremely busy creating new routes for this school year. Our regular bus routes have expanded by more than 100%.

All of our students are being bused by school cohorts as opposed to multiple schools on a bus at any given time.

We have hired 2 new drivers to the district. I would like to welcome Jody Bright and Phil Sheard to the transportation team. Our buses will start transportation SD61 students starting November 2, 2020.

We are starting to accept some mid-day trips mainly focusing on scheduled academy events. For example we will be transporting the Lambrick Park baseball academy to Pak Bay about 3 times a week.

Trips like these work well with our regularly schedules morning and afternoon bus runs.

## **OCCUPATIONAL HEALTH & SAFETY**

### Items:

- Refusal of unsafe work plan
- Coordinate Preliminary JOHS Committee Training
- DOHS Meeting recommendation plan
- Coordinate 2 week asbestos awareness/practical training
- Chemistry Lab Inspection Secondary
- Restructure District Health & Safety folder
- Restructure JOHS/DOHS shared folder

### **Priority (October 2020)**

- Execution Plan Facilities Health & Safety Management System
- Coordinate Training for all facilities staff (Fall Protection, Confined Space, Equipment)
- Coordinate Annual Hearing Test

RE: Sundance/Bank Street Update

DATE: October 19, 2020

### Background:

Through the 2019 boundary review, Sundance Elementary School will reopen as a K-5 school in the 2021-2022 school year. Given enrolment growth projected in the school, an expansion will be required to house future enrolment. Bank School is on the same property, was rented out, but is now vacant.

Both structures on the property require significant seismic upgrade in order to safely remain part of the District's asset pool. Sundance Elementary appears on the Board's approved 2021-2022 Annual 5-Year Capital Plan under both the expansion and seismic categories.

Two potential options for the property from Staff's perspective are:

- 1. Seek MOE capital funding to seismically upgrade both buildings;
- 2. Seek MOE capital funding to expand and seismically upgrade Sundance Elementary, and capital funding to demolish Bank school.

SD61 Facilities staff toured Bank on July 29<sup>th</sup> at 2:30 pm with City of Victoria heritage staff to determine the viability of maintaining the structure as a heritage building. City staff is currently reviewing its information to determine if the building is salvageable and able to be maintained as a heritage building. SD61 Staff is awaiting further communication from City Staff.

It is important to note that the demolition of Bank would provide green space for children attending Sundance School and be part of the space required for the current conceptual expansion of Sundance. If the demolition were not to occur, the expansion would require a new design concept along with a safety barrier erected around the Bank building to prevent any close proximity to the school.

While a consultation is not required by the Ministry of Education nor Board policy, to demolish, the Board may wish to consider a community consultation to fully inform itself before making a decision on options.

Another update will be forthcoming once the City has determined what its next steps are relative to maintaining Bank school as a heritage building or not. In the meantime the Board may have questions about the project as well as suggestions for other options to be pursued, all of which should be directed to staff in preparation for the next update.

# INTRODUCTION

# "If you don't like something, change it!" – Maya Angelou

This document seeks to outline the basis for an agreement in principle for a double-turf at Spectrum Community School which would be financed and maintained by the Vancouver Island Soccer League (VISL) and Lower Island Soccer Association (LISA). The current large field at Spectrum Community School has tremendous potential to be the center-point of a challenging socio-economic location.

Eight stakeholders have been part of discussions towards a project that will transform an unusable field and district cost. The project would improve the experience of Spectrum, family school and countless other SD61 students while providing for those most vulnerable in our society.

Lastly and importantly, it would address the Truth and Reconciliation Commission's Calls to Action while helping to strengthen and honour SD61's Strategic Plan Goal 2 and 3. In recognizing indigenous partnerships, learners and boosting physical and mental health opportunities, it would forge positive and long-lasting partnerships with the Songhees Nation whose traditional territory the school is on. It would also seek to engage other indigenous groups in our area.

# PARTNERSHIPS

The potential of such a proposal has attracted the following committed stakeholders. The majority of potential partners have presented letters of interest and support.

- Vancouver Island Soccer League (VISL) Since 1895, this not-for-profit group has 2000 players and oversees most of the adult male soccer on Vancouver Island. They are looking for practice and game time with potentially 1836hrs/year. <u>Their letter of support is here</u>.
- Lower Island Soccer Association (LISA) Since 1990, this district soccer body has overseen soccer in the Lower Island. Currently it oversees 8000 players. <u>Their letter of support is here.</u>
- Songhees First Nations The STAR Committee has reached out to the Songhees Nation for support. The Songhees have been extremely supportive through initial discussions. The nation tried to establish a field at their wellness center but unfortunately have been unable to. A turf development at Spectrum would provide them with free turf-time, on their traditional territory, for their nation to utilize for soccer, lacrosse, other physical activity and camps. Their letter of support is here.
- Thunderbirds (T-Birds) Soccer Association T-Birds Soccer Association is an indigenous youth soccer association. Initial conversations have taken place with Alex Nelson, their elder and leader of the T-Birds soccer group. Alex and the T-Birds are very supportive of this win-win. <u>A</u> <u>letter of support is here.</u>
- Native Indian Football Association The Native Indian Football Association (NIFA) would secure free turf-time for their endeavors under a Spectrum turf development. For over 30 years (since 1990), the NIFA has operated on Vancouver Island. It is the fruit of decades of work by Dano Thorne, its main founder and head coach and member of the Cowichans, one of the largest bands of the Coast Salish. The NIFA has enabled indigenous soccer players and their families to combine soccer and travel within an empowering cooperation. Of impressive note, the NIFA won the 2015 and 2017 World Indigenous Games for Canada winning gold medals. Celebrating this collective of proficient indigenous soccer players, a successful grant through the VISL and LISA would ensure their association was supported with access to free turftime. For a letter of support see here. For more on the NIFA's program please see this Telus Story Hive production link.
- Greater Victoria KidSport This non-profit funds children and youth player registration for sport and other activity in the Greater Victoria

region. Under a turf agreement with the VISL and SD61, KidSport Greater Victoria gains a home-base to run free-cost recovery programming for those most vulnerable in our Lower Island region. <u>To</u> <u>see their letter of support click here</u>.

- Saanich Municipality Have shown their support of the STAR Committee's ideas in principle and has approved motions to further conversations with the STAR Committee. There is also a Saanich member on the STAR Committee. Please see the Mayor's letter of support here.
- Gorge Soccer Association Has been interested in a turf field at Spectrum since 2010. They have a club of around 1000 players. <u>Their letter of interest</u> is here.

Each of these eight bodies are vested in such a recreational, socio-economic and cultural investment in the heart of a challenging area.

Additionally, Pac-Rim Lacrosse and Greater Victoria Baseball Association have been present at STAR Committee meetings while showing a keen interest in the development as a whole.

# SD61 STRATEGIC PLAN

A multi-stakeholder field at Spectrum School would allow SD61 to attain growth in a number of 'Goal' and 'Strategy' statements.

Please see the stars 🔀 below for overlap within the SD61 Strategic Plan for 2020-25.

# Greater VICTORIA School District

# Strategic Plan 2020-2025

# Mission

We nurture each student's learning and well-being in a safe, responsive and inclusive learning community.

# Vision

Each student within our world-class learning community has an opportunity to fulfill their potential and pursue their aspirations.

# Goal 1

Create an inclusive and culturally responsive learning environment that will support and improve all learners' personal and academic success.

#### Strategy 1:

Develop and support high quality learning opportunities through the implementation of curriculum in order to improve student achievement.

#### Strategy 2:

Engage and collaborate with students, families and staff to provide an inclusive learning environment that will enhance and support student learning, identities and well-being.

#### Strategy 3:

Address the inequity of outcomes for diverse learners in literacy, numeracy, engagement and completion rates.

# Goal 2

Create a culturally responsive learning environment that will support Indigenous learners' personal and academic success.

#### Strategy 1:

Critically examine personal and systemic biases, attitudes, beliefs, values and practices to increase student and staff understanding and appreciation of Indigenous worldviews, histories and perspectives.

#### Strategy 2:

Engage and collaborate with local Nations, Indigenous educators, Indigenous community leaders, Elders and families to enhance Indigenous student learning and well-being and identity.

#### Strategy 3:

Address the inequity of outcomes for Indigenous learners in literacy, numeracy attendance and graduation rates.

# 🔂 Goal 3

Create an inclusive and culturally responsive learning environment that will support all learners' physical and mental well-being.

#### Strategy 1:

Continue to provide professional learning opportunities to all staff in K-12 to further support implementation of social emotional learning, physical literacy and mental health literacy that improves outcomes for students and classrooms.

#### Strategy 2:

Work in collaboration with Ministry of Children & Family Development to provide joint educational planning and support for children and youth in care that helps develop the child's personality, talents and mental and physical abilities to the fullest for current and future success.

#### Strategy 3:

Engage and collaborate with families to encourage awareness of and engagement in physical literacy and mental health literacy that improves outcomes for students in classrooms and at home.

#### Strategy 4:

Address the inequity of opportunity for all learners to maximize physical health and mental well-being.

# FINANCES

The VISL and LISA have broached their respective boards and have sought permission for engagement in the project as well as permission to borrow funds to cover the capital contribution.

Please see the following live-link connections for financial plan information from STAR Committee member James Postans :

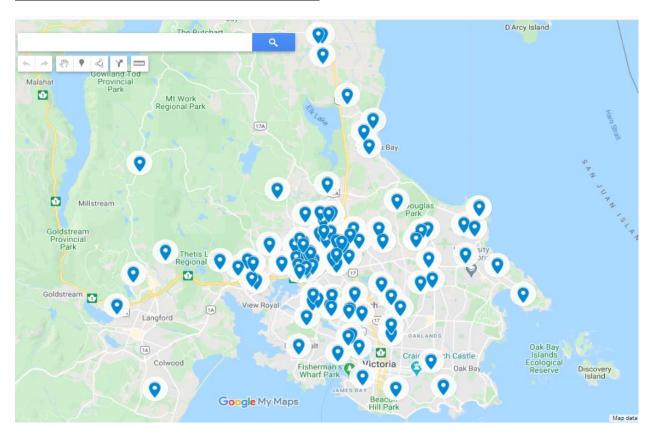

- Spectrum Turf Financial Model
- <u>Spectrum Turf Cost Estimate</u>
- <u>Spectrum Turf Funding</u>

Additionally, <u>the following VISL draft agreement & potential terms document was given</u> <u>to SD61's Operational Committee on September 21st, 2020</u>. This could provide the basis and possible terms towards an agreement in principle with SD61.

There is also the distinct possibility that other stakeholders will come to the table to help with the financial buy-in (via initial build or hourly rental funds) for this project.

# COMMUNITY ENGAGEMENT

The STAR Committee carried out a month long public consultation campaign and gathered the following data from community members in and around Spectrum Community School.

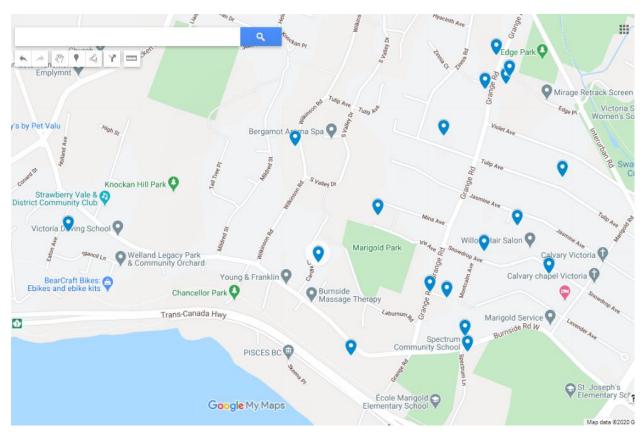

# Map 1: Survey Participant Home Addresses

As you can see from the map above, 116 people took the survey, many of them live within 1km of Spectrum Community School.

The STAR Committee encouraged feedback from local residents by printing and delivering survey information to over eighty houses which included the thirty Burnside Road houses directly opposite Spectrum Community School. Additionally, flyers were handed out to neighbouring streets of Lavender, Marigold, Snowdrop, Grange and Montcalm.

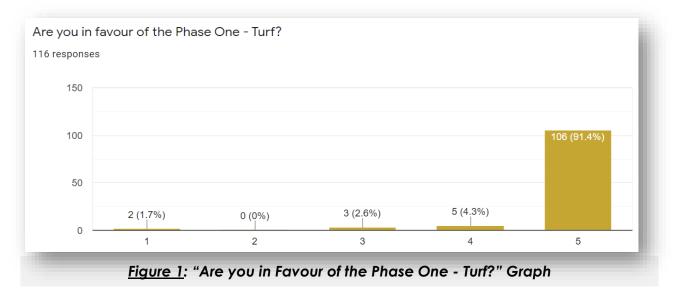

Additionally, the survey information went into Spectrum and family school's newsletters.

# Map 2: Survey Participants Around Spectrum Community School

The map above shows the response directly in and around the Spectrum Community School catchment.

Figure 1 below shows the support for the turf. Almost 96% (111) of survey participants support the turf. Of this, 91.4% (106) of participants strongly support the turf (5/5 score).

The question found that people generally supported the turf because of the opportunities it would provide youth and improving community health. For many, it is seen as a significant upgrade over an unusable field.

Three participants (2.6%) were indifferent to the turf project and neither support or disapprove of the turf.

Lastly, two survey participants (1.7%) were strongly against the turf. Their address locations were on Burnside Road (across from Marigold Elementary School) and on the neighbouring street of Lavender Road. These participants cited traffic and "noise from the parking lot" as major concerns.

# MITIGATING COMMUNITY CONCERNS

The STAR Committee has given considerable time, energy and thought into potential environmental and community concerns. With two civil engineers residing on our STAR committee, there is considerable experience navigating community infrastructure projects that have the potential to impact the public.

Through our research, we feel confident in the technology, strategies and capacities of our plan to minimize community impact. <u>Please see the following pdf presentation on</u> <u>the following potential issues</u> and strategies to mitigate them:

- Turf field particulate catchment
- Life-cycle and recycling of the turf
- Water and energy input
- Community friendly lighting
- Improved traffic flow

# CURRENT STATE OF FIELDS

There are major issues with the community field in its current state. At this time, the field is not used by any organized sports team or community groups. It also poses risk to its potential community users given the irrigation depressions (see below).

Irrigations channels and ditches create safety issues & potential injuries for students

# Field Based Injuries

Along with our coaches, staff and players, our past Athletic Therapist, Kayla Wiens, overseeing the now folded football team, had serious concerns about the condition of the field. In her opinion, the field has been responsible or partly responsible for a number of injuries over past seasons. She writes:

"Unfortunately, we encountered a great amount of injuries throughout the season, but it came to my attention that some of those injuries could have been prevented if only there were better field conditions. I have provided some examples of situations that I believe the poor condition of the field could have had an impact on the severity and occurrence of these injuries. All the injuries have one common component; and that is they all involve the athletes tripping or falling. The tripping could be caused by them tripping over other players or even their own feet but I don't believe this is the case for all incidences. The field has a number of divots and softs spots that make it very easy for athlete's feet to get stuck or lose their footing. Not to mention, the increasing number of trenches that run along the whole width of the field that are hazards and dramatically increase the chance of injury that is already high in football. "

# Her full letter regarding the field-based injuries is here.

Additionally, this risk has been acknowledged by football referees. <u>This letter shows a</u> <u>letter to our football coach about the poor state of the football field.</u> The referee identified the field as a "liability" and "unsafe".

# **Playing in Geese Feces**

During school operating months our fields are home to around 300 geese and other birds. These birds don't take a day off. Due to their heavy occupation of our field, you can't find a square meter without geese feces present. This is not a pleasant environment for our kids to play on.

One of the main reasons the geese inhabit Spectrum's field is due to the heavy presence of food plants. Western Plantain is throughout Spectrum's fields, especially the new field closest to Burnside road. This field which has been recently replanted at great expense and already has invasive thistles sprouting which impale our students. That said, these thistles are greatly outnumbered by the extremely common weed, western plantain. This newly replanted field is commonly referred to as the "Cabbage Patch" given the clumps and bumps of Western Plantain which compromise the field's flat surface.

On a daily basis our students have geese feces on their shoes, clothes and body. It isn't a pleasant environment for many. In fact, there are numerous daily complaints about it by our students.

# SUMMARY

A potential turf development with the eight community stakeholders would help address so much for our school and community.

In a partnership with KidSport Greater Victoria, we'd be able to provide free to costrecovery programming for children and youth while benefiting those most vulnerable in our society perhaps changing the lives of those most at risk.

A field development would address the Truth & Reconciliation Commission's Calls to Action (specifically numbers 7, 88 & 89). It would create meaningful and long-lasting partnerships with local indigenous peoples including the Songhees Nation whose territory the school is on.

For the school and the district as a whole, it would boost the educational experience of countless students in our lower Vancouver Island area while allowing sports and physical activity programming at every level to flourish.

It is for all these important reasons that the STAR Committee members are very proud to submit this proposal towards an 'agreement in principle' for turf-fields at Spectrum Community School.

FROM:	Trustee Ryan Painter
RE:	Spectrum Artificial Turf Field Project
DATE:	October 19, 2020

### Background:

As my colleagues will know, The STAR Project (Spectrum Turf and Rink) has come before the Board at various iterations of the business case development process. Below are the motions that have come before the Board and been approved (with action items taken in **bold**):

December 17, 2018 – The Board approved the following motion:

That the Board of Education of School District No.61 (Greater Victoria) approve a feasibility study for an all-weather turf field and "pop-up" ice rink at the Spectrum Community School site by the school's STAR Committee at no cost to the Board. (The Board voted in favour of approving a feasibility study for an all-weather turf field and pop-up ice-rink at Spectrum Community School.)

June 24, 2019 – The Board approved the following motion:

That the Board of Education of School District No.61 (Greater Victoria) direct the Superintendent to instruct staff to participate in the development of a formal business plan for the Spectrum Turf and Rink (STAR) Project. To be developed with the STAR Committee, SD61, and community partners.

March 9, 2020 – The Board approved the following motion:

That the Board of Education write a letter to Saanich Parks and Recreation: 1. supporting the STAR Working Committee's task of consulting neighbours and partners in its business case research for the proposed project at Spectrum Community School; AND FURTHER; 1. requesting Saanich Parks and Rec consider the proposed project in its feasibility study, recognizing the Board's commitment to the project is not decided. (A letter was written to Mayor and Council on April 23, 3030)

### Rationale

The STAR Committee has gone as far as it can without an official 'agreement in principle' from the Board. They have Saanich's documented support; they have community sports clubs engaged and ready to commit financially. Two of these stakeholders hope to secure a grant that will cover a significant portion of the project if awarded. The committee has also consulted the community in and around Spectrum Community School with favourable conclusions. They have considered, consulted, and gained the support of the Songhees Nation and other indigenous groups who would benefit from a turf at Spectrum. The traditional territories of the Songhees which the turf would be placed on is owned by the School District. An 'agreement in principle' will directly address the Truth and Reconciliation Commission's Calls to Action while also supporting and strengthening SD61's Strategic Plan Goal 2. It would legitimize stakeholders' grant application and

greatly increase the chance of success. Additionally, the willingness to receive letters of intent to commit will help community groups proceed in good faith on their commitment to the project and begin working to fulfill financial requirements of the project.

### Alignment to Strategic Plan:

This project aligns with Goal 2 (Strategy 1 and 2) and 3 (Strategy 1, 3, and 4)

# Goal 1

Create an inclusive and culturally responsive learning environment that will support and improve all learners' personal and academic success.

#### Strategy 1:

Develop and support high quality learning opportunities through the implementation of curriculum in order to improve student achievement.

#### Strategy 2:

Engage and collaborate with students, families and staff to provide an inclusive learning environment that will enhance and support student learning, identities and well-being.

#### Strategy 3:

Address the inequity of outcomes for diverse learners in literacy, numeracy, engagement and completion rates. Goal 2

Create a culturally responsive learning environment that will support Indigenous learners' personal and academic success.

#### Strategy 1:

Critically examine personal and systemic biases, attitudes, beliefs, values and practices to increase student and staff understanding and appreciation of Indigenous worldviews, histories and perspectives.

#### Strategy 2:

Engage and collaborate with local Nations, Indigenous educators, Indigenous community leaders, Elders and families to enhance Indigenous student learning and well-being and identity.

#### Strategy 3:

Address the inequity of outcomes for Indigenous learners in literacy, numeracy, attendance and graduation rates.

# Goal 3

Create an inclusive and culturally responsive learning environment that will support all learners' physical and mental well-being.

#### Strategy 1:

Continue to provide professional learning opportunities to all staff in K-12 to further support implementation of social emotional learning, physical literacy and mental health literacy that improves outcomes for students and classrooms.

#### Strategy 2:

Work in collaboration with Ministry of Children & Family Development to provide joint educational planning and support for children and youth in care that helps develop the child's personality, talents and mental and physical abilities to the fullest for current and future success.

#### Strategy 3:

and under the following categories:

- Advocacy
- Community Engagement

### Recommendation:

That the Board of Education of School District No. 61 (Greater Victoria) support in principle for a period of up to two years, the proposed artificial turf field project at Spectrum Community School ,at no cost to the Board; AND THAT Staff be directed to update the Board once funding has been secured by the STAR Committee.

The Greater Victoria School District wishes to recognize and acknowledge the Esquimalt and Songhees Nations, on whose traditional territories, we live, we learn, and we do our work.
