TRUSTEE QUESTIONS

1. Please provide an update on the stair treads that lead to the weight room at Arbutus Middle School.

Material for these treads was ordered in July and unfortunately there was an ordering error, and the materials have yet to arrive. The team had the stairs scheduled to complete over the winter break, if the materials arrived, but unfortunately, they did not arrive. Once the materials arrive, this will be a priority, and the Principal of the school is aware of the issue.

Project Summary

Cedar Hill is a two-story building constructed in 1931 with subsequent additions in 1953, 1956, 1959, 1963, 1966, 1972 and 1975. There are nine blocks identified as high risk with 5 of the blocks having an H1 rating (most vulnerable of structures and at the highest risk of widespread damage or structural failure). Cedar Hill is a key asset to meet current and projected enrolment for regular and district education programs. The project will consist of a full seismic replacement with a low carbon design.

1. Project Team

The School District Project Team are identified in Appendix 1.

2. Scope

The project consists of a full seismic replacement with a low carbon design and is being delivered through a Design-Bid-Build process. The low carbon design will reduce greenhouse gas emissions and surpass the LEED Gold equivalent baseline. The replacement school will have a 575 nominal capacity and will be built on an existing playfield. During construction, the students will remain in the old school, therefore no temporary accommodations are required. Once the new school attains occupancy, the old school will be demolished, and a replacement field will be developed in its place.

3. Schedule

The following Table 1 sets out target milestone dates.

Table 1 – Timetable for Key Milestones (Design-Bid-Build) Completion Dates

MILESTONES/DELIVERABLES	CPFA APPROVED DATES	UPDATED DATES
Ministry Approval	July 2021	July 2021
Design Development	December, 2021	November, 2022
Construction Documentation	August 31, 2022	March, 2023

Demolition of Existing School & Geo Install	May 30, 2025	December, 2025
Final Completion	August 31, 2025	Spring, 2026

4. Budget:

The maximum approved potential project budget is \$53.6M inclusive of a \$3.6M District contribution. The contribution was originally approved to bridge the cost difference between the option to replace the school and the option to seismically upgrade the school. The Ministry approved funding is for a LEED Gold equivalent school with low carbon design specifications that will reduce greenhouse gas emissions via the mechanical system. The Board also approved the inclusion of a Net Zero Energy Ready with a 100kW Photovoltaic array design for the new school with a further District contribution of \$538K. In August 2023, the School District requested a budget lift from the Ministry, based on the tender results, and have received the increase from \$46.5M to \$53.6M. The funding includes \$4.6M of risk reserve funding which is held by the Ministry for unforeseen items. Ministry approval is required prior to any material changes to the project's scope, schedule, procurement method, or budget.
