location specific hours

The Greater Victoria School District has once again partnered with **BoulderHouse** to participate in their Community Benefit Program. Climbing at their facilities is designed around a set of 8 colour coded climbing circuits to provide climbers with a varied set of challenges and boulders are reset every week to keep the problems new and exciting every time!

BoulderHouse aims to help every climber, at every level, develop a well-rounded set of skills. To keep you motivated and challenged in new ways, a section of the wall is reset weekly.
