Week 11 Update – Turf Construction at Spectrum

Images by Spectrum Student Sawyer Stevens

As we head into Spring Break for the next couple weeks, construction crews will continue to work on the new field. Work will continue on the electrical service and crews are anticipating to begin work on the water service for both the field and a future club house. Safety fencing has been installed around the newly affected areas.

Ongoing site safety measures will remain in place, including maintenance of silt fencing for sediment control and snow fencing to define the work zone. Tree protection fencing will continue to be monitored and maintained as required. We like to remind our community to be cautious around the construction site and to be aware of construction traffic accessing the site at the Marigold/West Burnside Road intersection.

If you have any questions, please reach out to any of the Admin Team.
