Update #18 – Turf Construction at Spectrum

Next week, construction crews will continue work on the field drainage system and lighting infrastructure. Crews will also begin working on the infrastructure for the water services for both the field and the future clubhouse to the municipal water supply. We appreciate everyone's patience and support as the project continues to move forward.

Ongoing site safety measures will remain in place, including maintenance of silt fencing for sediment control and snow fencing to define the work zone. Tree protection fencing will continue to be monitored and maintained as required. A traffic control person will also be present as there will be an increase in construction traffic accessing the site at the Marigold/West Burnside Road intersection.

If you have any questions, please reach out to any of the Admin Team.

Aaron Norris, Michelle Darling, and Phil Ohl
