Update #21 – Turf Construction at Spectrum

Photo by Spectrum student: Sawyer Stevens

Construction on the field continues to make excellent progress. Approximately 95% of the fence posts have now been installed, and crews are fine-tuning the sub-base gravel in preparation for the delivery of the base gravel scheduled next week.

Another exciting milestone took place this week as crews poured the first section of sidewalk on Thursday. Work remains on schedule, and we appreciate the community's ongoing patience and support as the project continues to take shape.

Site safety measures will continue throughout the project, including the ongoing maintenance of silt fencing for sediment control and snow fencing to clearly mark the construction area. Tree protection fencing will also remain in place and be monitored as needed. A traffic control person will be on-site during periods of increased construction traffic entering and exiting the site at the Marigold and West Burnside Road intersection.

If you have any questions, please reach out to any of the Admin Team.
