Week 3 Update – Turf Construction at Spectrum

Photo by Spectrum Yearbook student: Marin Lowery

This week construction crews have continued to bring in materials and prepare the site. Additional protective fencing has been installed as some excavation has begun. Next week, crews will continue to excavate for the installation of manhole barrels, begin work on perimeter field drainage, bring in construction materials, and work on the temporary access road from Burnside Road West.

Until the Burnside Road West access point has been created, we would like to remind our community to be careful in and around the active construction site. Thank you for your patience and understanding as crews still need to access the site through the school parking lot.

If you have any questions, please reach out to any of the Admin Team.

Aaron Norris, Christina Pelletier and Phil Ohl
