Update #24 – Turf Construction at Spectrum

What a difference a few weeks can make! Construction has made tremendous progress over the summer, and we are getting very close to the finish line. We are hopeful that the turf field will be ready for use during the first week of school.

Over the coming week, crews will be working to complete a variety of final tasks in preparation for the fall, including installing fencing around the turf, completing irrigation for the site, electrical work for the lighting, paving an access area, and carrying out general site clean-up.

While the field may look nearly ready for use, it remains an active construction site and is not quite ready yet. We ask that our community continue to stay away from the construction area and remain off the turf until the project is officially complete and the site has been cleared for use.

Site safety measures will remain in place throughout the final stages of construction, including silt fencing for sediment control, snow fencing to clearly mark the construction area, and tree protection fencing, which will continue to be monitored and maintained as needed.

Thank you for your continued patience and support as we reach the final stages of this exciting project. If you have any questions, please reach out to any member of the Admin Team.

Aaron Norris, Danielle Mercer, and Phil Ohi
